

## **SUFFOLK CONSTRUCTION AWARDED \$19.2M MARINE CORPS CONTRACT**

*Firm to construct fitness center at Camp Lejeune*

SARASOTA, FL; March 29, 2010 – Michael Beaumier, vice president of Suffolk Construction, today announced that the Sarasota, Fla., firm has been awarded a \$19.2 million contract to design and construct a fitness center at Camp Lejeune, a U.S. Marine Corps base in North Carolina. Suffolk partnered with Zyscovich Architects, TLC Engineering and Kimley Horn and Associates on this design/build LEED® Platinum facility.

“We are honored to be selected and look forward to beginning this project on the base,” Beaumier said. “Our team has been working hard to expand Suffolk’s presence with the Federal Government throughout the Southeast. This is our second contract with the Navy this year and hopefully the beginning of a long relationship. We are committed to working in the area and look forward to hiring local contractors.”

The facility will feature:

- Indoor track and swimming pool
- Gymnasium with basketball, volleyball and racquet ball courts
- Weight training and cardiovascular fitness areas
- Fitness assessment room
- Men, women and family locker rooms
- Laundry facility
- Vending area
- Private staff offices
- Destructive weather shelter for extreme wind events

Construction is expected to be completed by Spring 2012.

###

Founded in 1982, Suffolk Construction Company, Inc., is one of the leading privately held construction management firms in the country, with main offices in the northeast, mid-Atlantic, southeast and west coast regions of the country. Suffolk provides preconstruction, construction management, design/build and general contracting services, and has a strong reputation for delivering challenging building construction projects in the healthcare, education, science/technology, government and commercial sectors.

Suffolk’s approach, capabilities and offerings are transforming the way clients achieve success in the construction industry. Suffolk has a commitment and passion for environmentally-friendly business practices and sustainable building, a focus on state-of-the-art technologies to support key processes, such as Building Information Modeling (BIM), and a creative and intensive approach to preconstruction planning which has resulted in higher quality and lower overall costs for clients.

Suffolk employees are experienced construction professionals and are committed to client service and relationship building. They are influencers in the construction industry and in their local communities, and consistently lead by example while striving to exceed expectations with clients,

partners and the people and businesses in the surrounding neighborhoods. For more information about Suffolk, please visit the company's Web site at [www.suffolkconstruction.com](http://www.suffolkconstruction.com)
