

SUFFOLK CONSTRUCTION RECOGNIZED BY TRAINING MAGAZINE AS ONE OF NATION'S ELITE IN EMPLOYEE LEARNING AND DEVELOPMENT

Suffolk ranked on the top 30 among most respected national companies on prestigious "Training Top 125" list; ranks second among all construction companies

BOSTON, MASSACHUSETTS, January 19, 2010—Suffolk Construction Company, Inc., was recently recognized on the *Training* magazine "Training Top 125" list as one of the nation's elite organizations in learning and development for employees. Suffolk ranked in the top 30 (#29) and was listed higher than notable national organizations such as Four Seasons Hotels and Resorts, McDonalds, and Intel, among others. Suffolk was the second highest-ranked construction company on this year's list. *Training* magazine's "Training Top 125" list is the country's most respected ranking of Fortune 500 companies' training and development programs.

Training bases its Training Top 125 rankings on a variety of benchmarks, including total training budget; percentage of payroll; number of training hours per employee program; goals, evaluation, measurement, and workplace surveys; hours of training per employee annually; and detailed formal programs. The ranking is determined by assessing a range of qualitative and quantitative factors, including financial investment in employee development, the scope of development programs, and how closely an organization's development efforts are linked to business goals and objectives.

Training announced the rankings for the 125 leading organizations at an awards gala in February at the Training 2010 Conference & Expo in San Diego, California.

About Suffolk Construction

Founded in 1982, Suffolk Construction Company, Inc., is one of the leading privately held construction management firms in the country, with main offices in the northeast, mid-Atlantic, southeast and west coast regions of the country. Suffolk provides preconstruction, construction management, design/build and general contracting services, and has a strong reputation for delivering challenging building construction projects in the healthcare, education, science/technology, government and commercial sectors.

Suffolk's approach, capabilities and offerings are transforming the way clients achieve success in the construction industry. Suffolk has a commitment and passion for environmentally-friendly business practices and sustainable building, a focus on state-of-the-art technologies to support key processes, such as Building Information Modeling (BIM), and a creative and intensive approach to preconstruction planning which has resulted in higher quality and lower overall costs for clients.

Suffolk employees are experienced construction professionals and are committed to client service and relationship building. They are influencers in the construction industry and in their local communities, and consistently lead by example while striving to exceed expectations with clients, partners and the people and businesses in the surrounding neighborhoods.
